WE DID IT!

Bargaining Team Reaches Tentative Agreement That Values Our Dedicated Garden Grove RNs

Our UNAC/UHCP-GGRNA bargaining team has reached a tentative agreement (TA) on a new three-year contract for the registered nurses at Garden Grove Hospital and Medical Center.

This agreement, reached with Prime Healthcare, is a major step in the right direction to address serious issues around RN retention and recruitment. The three-year contract will bring significant improvements to compensation and working conditions for registered nurses.

This TA is a direct result of the collective power of our union. The agreement must be ratified by our members before it can take effect: Details and specifics of this agreement will be provided at the ratification meeting on September 27. **Our bargaining team recommends that members vote YES to ratify this agreement.**

Our team worked hard to defeat management proposals that would diminish the value that dedicated Garden Grove registered nurses bring to our patients and our community. We fought for contract changes that will attract RNs to Garden Grove, and keep them here. Our key accomplishments include:

- Across-the-board raises and substantial step increases
- Increases to evening and night-shift differentials, on-call pay, and preceptor compensation
- Added protections that allow members continued access to education leave
